

MEDICAL TRAVEL COMPANIONS

In order to provide the right level of specialized air medical services for our patients, **AirCARE1 International provides Commercial Flight Medical Travel Companion Services**

What We Do

Provide an affordable alternative to Private Air Ambulance services to patients in non-critical conditions in need of **long distance transport to worldwide destinations on commercial airlines.**

Our transport solution includes:

- Booking of all worldwide airline flights to transport the patient, including arrangement of special assistance needs and medical clearances prior to flight
- Continuous care throughout transport by medical staff experienced in emergency and critical care
- First/Business Class seating for greater comfort during travel
- FAA approved oxygen and medical equipment
- 24/7 Communication Center for around-the-clock flight following and updates
- Ambulance or Private sedan ground transport
- Travel arrangements for accompanying family members
